REFERENCE

ED-139

1. The subject of Austrian Stay-Behind activation instructions was recently discussed with Austrian Rear Base officials who, in view of the initial personnel problems confronting JASPER in the event of a hot war, accepted the "within 30 days" type of activation instruction.

2. While at the present time only two Austrian W/T Agents have signal plans based on JASPER, plans are being made for the caching of seven, possibly eight, BYCINK/Universal Signal Plans by the end of next year, all based on JASPER. Agents receiving BYCINK/Universals will be issued the activation instructions written by NATCA, copies of which are attached.

FOR THE CHIEF, EUCA
